

McARTHUR

CENTRE POCKET FRAMING

The McArthur Centre Pocket Framing System is the most popular and flexible of the ALSPEC Commercial range. Available in two frame depths, 101.6mm and 150mm x 44.4mm. Ideal for shopfront use, it is widely favoured by architects and designers for a multitude of applications.

With its straight cuts and centre pocket framing the McArthur not only looks good, but is easy to fabricate and easy to install. Suitable for a range of glass thicknesses with self draining sub sills that solve water leakage problems. The McArthur also provides a seamless interface with ALSPEC's extensive product offer.

Key Features

- Sharp unbroken lines
- Robust frame
- Excellent weathering
- 4mm up to 10.38 glazing options
- Centre pocket framing, reducing the number of beads required thus improving fabrication and installation time
- Various adaptors to easily accept awnings, double hung, sliding windows, louvres and ALSPEC's extensive door range

Specifications:

For structural performance refer to the ALSPEC Technical Manual.

Commercial Framing

- WERS Rated
- Designed to meet AS2047
